

Fantasy

WHAT YOU TAKE HOME WITH YOU :

Promotion of a team work

Research of new motivations

Overcoming of the barriers in companions' relationship

CREATIVITY, MUTUAL KNOWLEDGE AND MOTIVATION

We are planned to build barriers towards what we know less and towards those people upon whom we do not rely yet. In every society and even in minor social systems, like a company, there are chances to overcome the barriers with happiness and involvement hus knowing better our colleagues and overcoming

the differences. The tool used is the game meant as aggregation language. You take advantage of the game in order to speak about yourself, to make yourself known and even to discover your team mates' talent. Our proposals are easily feasible on the occasion of business conventions and incentives.
